"Shut your eyes, open your mouth and see what luck will bring you."

Many a woman is weak and sick, nervous and discouraged. She suffers from headache, backache and other ills. She wants to be well, but all she does is to shut her eyes and open her mouth for results. She "doctors" month after month, but to no avail. Then one day, after years of suffering, she reads in the paper of Dr. Pierce's Favorite Prescription. She buys a bottle and takes it with her eyes open to the fact that it cures women's ills. It cures her. It dries debilitating drains. It heals inflammation and ulceration and cures female weakness. There is no trusting to luck by those who use "Favorite Prescription."

"In the year 1903 my health was poor," writes Mrs. J. Hark, of 243 Broadway, Buffalo, N. Y. "I suffered from falling of womb, a disagreeable discharge, painful monthly periods, headache, backache, and other ills. Every month was confined to bed for two or three days. Was weak, nervous and hysterical. It was a burden to myself and I made every one in the family unhappy because I was so irritable. My husband got me four bottles of Dr. Pierce's Favorite Prescription, and before I had taken the first bottle I was feeling some relief. The medicine made me well and strong, free from nervousness, aches and pains, and I felt like a new woman. Before I used the Favorite Prescription I had been taking another physician's medicine for nearly three months, but had received no benefit. Your medicine is certainly the best in the world."

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two or three cathartics. Don't let a selfish seller over-persuade you to accept a substitute for these Original Little Liver Pills. Put up by Dr. R. V. Pierce over 40 years ago. Much imitated but never equaled.

COTTON IN A FABRIC.

How to Tell if Worsted or Woolen Cloths Are Adulterated.

Worsted cloths are less often adulterated than woolens and are more easily detected. A cotton worsted is a lie on the face of it, for the cotton stands out with prominence. But often a cotton thread is twisted with a worsted thread, and to determine its presence it is only necessary to take the twist out of the thread and then examine its component parts.

Cotton, having a long staple, can be carded and combed with wool to be spun into worsted yarn. This is done to cheapen the cost of production. Cotton is carded and spun with wool and shoddy, not so much to cheapen the yarn, for cotton is generally as expensive as some shoddies, but is introduced to give strength or spinning qualities to the stock. In many cases the shoddy is of such short staple that it would not stand the drawing in spinning, and, as it would make the cost of the yarn too high to put in enough wool to give that lacking strength, cotton is put in for this purpose.

The percentage of cotton in a fabric can be determined in this manner: Take a small piece of cloth and weigh it. Now boil it for five minutes in a 5 per cent solution of caustic soda. Take out what is left, and, if any, it is all cotton. The wool will all be dissolved. The percentage of shoddy cannot be determined except by experience.

A cloth or yarn with shoddy in it is easily detected by its feel. Cloth made of all new wool is softer feeling than one containing shoddy, for the latter has lost that new, soft, springy feel peculiar to wool—American Wool and Cotton Reporter.

The Tools of Genius.

Some of the greatest discoveries in physics and chemistry have been made with the simplest forms of apparatus and under the most modest conditions of laboratory equipment. One need only recall the achievements of the famous John Dalton and in later times of Sir Gabriel Stokes to illustrate the point.

As regards the latter, a comment of Lord Rayleigh is of interest. Stokes' experimental work, he says, was executed with the most modest appliances. Many of his discoveries were made in a narrow passage behind the pantry of his house, into the window of which he had a shutter fixed with a slit in it and a bracket on which to place crystals and prisms.—London Telegraph.

The Greatest American Two-Cylinder Touring Car Ever Sold FOR \$1550.00

This car is superior, in design and speed, to many of the best two-cylinder cars built in 1904—cars which sold for from \$2000 to \$3500.

20-H.P. Oldsmobile Touring Car

This is the latest Oldsmobile creation—a 20-H.P. two-cylinder touring car with side-entrance. Double opened motor 20 x 24, 30-inch wheel base, noise of exhaust completely eliminated. It combines comfort with speed, hill-climbing ability and plenty of surplus power.

It is roomy and comfortable. Its distributed weight and long spring action permit it to 10 miles per hour increased speed over rough country roads with comfort and this ease of spring saves tire expense and general wear and tear.

It is very easily controlled and is quick in action. It runs on high speed up to 40 miles an hour. This machine is very popular in San Francisco as it has the power to take heavy grades on high speed. This fact is too limited to give full description, the whole story is told, however, when we say "There is no other \$1550.00 machine of its class to equal it. Let us prove this to you."

Don't forget that our French Type Runabout at \$800.00 (F. O. B. San Francisco) has no equal. Our new car, the Dash (\$2000.00) is a standard "Motor on Wheels". Our Tonneau (\$3500.00) is a good slow speed family car, together we have twelve types of machines. OLDSMOBILES run the year through and run for years. The wear and tear expense is \$1.00 to \$2.00 for other makes.

Our WINTON Four-Cylinder Touring Cars have all cars of their class "driven to the wall limit"—4 Models, 16 to 50 H.P. \$1950 to \$4650

COUNTY OFFICIAL PAPER.

Saturday, April 22, 1905.

D. E. O'KEEFE.....EDITOR AND PROPRIETOR

COLONEL E. F. PRESTON.

The death of Colonel Edgar F. Preston has caused genuine sorrow through the county. He was a genial man, beloved for his frank and open expression, and his kindness. He had an encouraging word for every one, and none knew him but to love him. His death occurred suddenly at his beautiful home at Portola last Sunday evening. Apoplexy was the cause of death. With simple services the remains of this noble man were laid away in Cypress Lawn Cemetery Tuesday.

Colonel Preston occupied a high place, to which he was indebted solely to his own qualities of mind and heart. He was born in New Orleans, La., January 15, 1849. His father was a lawyer, who died while the child was an infant. At the age of 6 years he came to California with his mother. He was educated in the San Francisco public schools for a time. When he was 16 years old he was an office boy for a stock broker. After that he was a clerk of the San Francisco and Alameda Railroad Company. Colonel Preston was admitted to practice law in this State in 1871.

His triumphs in law were many and significant of his ability. As attorney for the O'Brien estate he won a great reputation. One success followed another. Large corporations and great commercial interests employed him. He made many business connections, and his excellent judgment served to amass for him a fortune. He was prominently connected with the Selby Land and Swelling Company as a member of the executive committee of the board of directors. He was also identified with banks as a director and he had other business interests of importance.

He shone in society, in the legal profession, in the clubs, in business, in political and fraternal circles. He was an ardent Republican and at one time had gubernatorial aspirations.

The press agent of the President's western hunting trip ought to make his fortune with a circus or an opera singer. He is giving Teddy a daily send-off that is a morning paralyzer to nervous old ladies and the Katzenjammer kids. One day the President captures a live wolf single-handed by seizing the animal's jaws so he cannot bite. Next he shows the veteran cowboys a few wrinkles in bronchobusting. Then he kills a black bear weighing 600 pounds (ye gods!) and eats him for breakfast. It appears, if the voracious chronicler of the President's feats is to be believed, that Teddy beats all the cowboys, hunters, trappers and guides in their own particular specialties, and sighs each morning for a higher mountain to climb, a harder bucking horse to ride, and a bigger wolf to capture with his bare hands. But perhaps the world is giving to lying in our day as much as it was in Falstaff's time.

The eastern woman who came to Los Angeles sick and shortly mustered up strength for a walk back to Pittsburg probably acted under the inspiration of the abnormal hotel bill and gall development of Southern California.

Another noteworthy thing about John Brown, whose soul is marching on, was his attitude on social suicide. His seventeenth child, Miss Sarah Brown, is a hardworking farmer in this State. She was not the youngest child in the family by four.

Some one has discovered that the sentence, "No, it is opposition," reads the same backward and forward. And that is about all there is to a double-ender platform.

TOWN COUNCIL.

Deputy Sheriff Butts Presents a Bill at Prohibition.

The regular monthly business meeting of the Town Council was held last Monday evening at the City Hall. The roll call showed all members present. Clerk Stafford read the minutes of the meeting for the past month, which were approved.

Chairman Haver asked if there was any business, but before any could be mentioned Deputy Sheriff H. F. Butts presented a writ of prohibition to the board and to the several members, enjoining them from granting any licenses under the recently passed ordinance. The writ was issued by Judge Buck at the instance of W. B. Armstrong. The injunction was issued because of the vote of Trustee Luscher, who is supposed to be an interested party, as he desires to have a saloon in the building which he is now erecting, the license of which the writ states, is to be issued to Luscher's brother-in-law, Theodore Tollner. The members were each instructed to appear before the Superior Court Thursday morning to show cause why they should not be permanently restrained from granting any licenses under the ordinance.

A communication from Mrs. B. Cullen was read, which was a request that she be allowed to put an 18-inch curb in front of her property on Mound street, instead of a 30-inch curb, which she claimed, under the authority of a concrete man, would not stand because of its weight. Mr. Walker objected to granting the permission, as the engineer's specifications call for a uniform 30-inch curb. The communication was placed on file.

Geo. C. Ross appeared for the Redwood City Water Co., of which he is a member, and asked that the ten-year contract between the town of Redwood City and the company, which is now in force and under the terms of which water is supplied to the town for 7 1/2 cents per 1000 gallons, be abrogated. Mr. Ross claimed that the company had never received a reasonable rate of interest on the money invested and that should the present contract be continued in force the company would sustain a loss. He asked, therefore, that a new contract be entered into whereby 10 cents per 1000 gallons would be paid. Dr. J. L. Ross, also a member of the company, added his word of testimony to the case, and told the board that something had to be done. He cited Spring Valley and other water rates in so convincing a manner that the board decided to look into the matter closely and report next Monday night.

The treasurer reported a balance of \$3620.76 in the General fund and the following claims were passed and ordered paid:

Divorce Granted.
Thursday Judge Buck granted an interlocutory decree of divorce to Susie I. Digges from her husband, Lawrence S. Digges. The parties were married at San Mateo May 28th, 1902, the husband deserting his spouse shortly after the marriage. Desertion and failure to provide were the grounds on which the suit was brought.

The Republican and the Democrat of Fresno joined hands in support of the non-partisan ticket, which was snowed under at the recent election. Now they are disputing as to who killed Cock Robin. They had better let the dead past bury its dead.

COUNTY BOARD IN SESSION

Official Business Transacted by the Supervisors at Last Meeting.

Contractors Who Are Building the Bay Shore Cut-off Take Possession of a Road.

The Board of Supervisors met in regular session Monday. All the members were present.

L. Simi of Colma was granted a liquor license. His bondsmen are John Montevardo and M. Foley.

A communication signed "A Colma Taxpayer" was read, calling the attention of the board to the fact that one Cavo was selling liquor without a license at his saloon opposite the Italian cemetery near Colma. On motion of Debenedetti, seconded by Eikerenkotter, the communication was referred to the License Collector, to report at the next meeting of the Board.

"To the Honorable Board of Supervisors of the County of San Mateo: Gentlemen: I, Harry D. Pierce, the undersigned, do hereby certify that the retail liquor license issued by your honorable board in the name of H. D. Pierce & Co., on the 31 day of April, 1905, to carry on a retail liquor business at Colma, in the county of San Mateo, in that certain building known as the 'White House,' was issued to me through my inadvertence and mistake, the owner of said business being at said time and now Mr. James T. Casey. I therefore respectfully ask your honorable board to order the said license so issued in the name of H. D. Pierce & Co. changed to read in the name of James T. Casey, upon said Casey filing herewith the necessary petition and bond, and I do hereby waive any and all claim, right and title to said license so inadvertently issued to me. Respectfully yours,

"HARRY D. PIERCE.

"April 15th, 1905."

James T. Casey was sworn and testified that the explanation made in Mr. Pierce's communication was true and correct. He was the owner of the business and had given the money to Mr. Pierce to secure a license. Through some inadvertence it was made out in his name. There was evidently some misunderstanding, and he desired the change to be made. On motion of Debenedetti, seconded by McCracken, the License Collector was authorized to make the desired change.

District Attorney Bullock suggested that in view of the change he thought the new bondsmen should be presented. Whereupon R. S. Thornton and Charles Sunderman qualified as bondsmen.

The following communication was read from the Gardner Sanitarium:

On motion of Eikerenkotter, seconded by MacLain, the request was granted by the board that the grading contractors who are building the bay shore cut-off are practicing rendering the bay shore wagon road impassable to travel.

"They have built tracks along the roadway and put in numerous crossings," said he, "without asking permission from anyone, and without even considering the right of the public for a moment. I objected to one crossing which I considered particularly dangerous, and said if it were put in I should tear it out. But they bid their time and laid the rails on Sunday and thus accomplished their purpose."

Mr. Eikerenkotter said further that the contractors had not consulted him in any particular, and even went so far as to build a house in the roadway. This he ordered removed, and his request was complied with. They also made a fill near one portion of the road and placed a sign on a post informing the public that the roadway was a private thoroughfare and that all who traveled thereon did so at their own peril. He asked the board to assist him in maintaining the rights of the public.

MacLain thought that the Board should visit the scene of the trouble in a body and ascertain the facts for themselves. McCracken and Dobenedetti also concurred in MacLain's views. On motion of Eikerenkotter, seconded by MacLain, it was agreed to go on the noon train.

The Clerk was directed to notify the Southern Pacific Company of the affair and to send a representative to the next meeting to show cause why the obstruction should not be removed.

Whereupon the board adjourned to Monday, May 1st.

Grove Ayer and family will shortly move to San Francisco to reside. Mr. Campbell and family, who have been traveling in Europe, have arrived in San Francisco and are to take up their residence at Campbell, which has been occupied by Mr. Ayer for the past two years. He found it impossible to rent a suitable residence in this locality.

All dance-goers are looking forward to the Native Sons' dance in Duff & Doyle Hall next Friday evening with pleasing anticipation. It is to be the first hop after Lent, and for this reason it will be well attended. The floor is to be under the able management of F. P. Roach, and with a corps of assistants all may be assured of a good time. Excellent music has been engaged. The dance will continue all night.

The Sunset Telephone Company is rebuilding its lines in this locality at a heavy expense and with the intention of giving the town the best service possible. Nearly all of the overhead wires are being taken down and cable connections made instead. The "express" system is being installed and when it is completed the method of signaling "central" will be the same as in Palo Alto and all other up-to-date telephone towns.

Leo Sargent, superintendent of the J. J. Moore place, was badly gored by a mad bull last Monday. It appears that Sargent with another employee had cornered the animal and was about to kill the horns when the bull objected and broke away. He got Sargent against the fence and tossed him ten feet in the air. One of the animal's horns was pinched off, but the other seemed to be ample and seven inches of it were driven into the Sargent's right side. For a time his life was despaired of. The unfortunate man was immediately taken to a San Francisco hospital and is resting quietly with a good chance of ultimate recovery.

The old McEvoy barn on the Johnston estate was destroyed by fire last Sunday evening. The blaze was discovered at 8:30 o'clock. The fire department was called out, but before it could do any effective work the flames had enveloped the building, and all that the firemen could do was to save adjoining structures. The stable was crowded with horses at the time, and with the assistance of the firemen and others they were all saved. About twenty tons of hay and a few sacks of barley were consumed in the flames. The building was an old landmark, being the first structure erected in town. It was a rendezvous for tramps, and it is thought the fire started from their carelessness. The building was erected in 1854.

The Menlo Park Horticultural Society is putting forth its very best efforts to make the approaching flower show on May 6th a glowing success. In addition to the schedule of prizes already published the society will give a prize for the best table decoration and the best table bouquet. While the display of choice blooms will be a feature of the show yet the entertainment in the evening will attract popular attention, for it is to be the best ever given in Menlo Park and the committee having it in charge, James T. Lynch and Robert Rathbone, deserve credit for their energetic efforts in securing first-class talent. The entire Stanford Glee Club, consisting of eighteen persons under the able leadership of Arthur W. Hooper, will appear on that evening. Young Hooper is a son of J. A. Hooper, the millionaire lumber king of Woodside, and is the ablest leader ever produced at Stanford. His talents are known all over California. The Stanford Mandolin Club of fourteen persons will appear. The other numbers of the program will be equally as good.

Menlo has had days of fun and frolic,

but picnic-day this year promises to outdo them all. The date selected for the big event—Saturday, May 13th—seems to suit everybody and the whole countryside is astir. One day in the year and Sunset Park, in the midst of the Santa Cruz mountains, will resound with the merry laughter of children, the shouts of athletes and the strains of Redwood music. Only one thing picnic has so far been arranged for Sunset Park this season. On this account a large attendance is expected and a train to run in five sections has been chartered. The first section leaves Third and Toy used streets at 7:15 o'clock and runs direct to Menlo Park without stopping. The second section leaves ten minutes later, stopping at Valencia street, San Mateo, El Monte, Redwood City, Menlo Park, Palo Alto, Mayfield, Mountain View and Santa Clara. The remaining sections run at intervals of ten minutes, stopping at all above named places except Valencia street. The unique spectacle of five trains within hailing distance of one another is something entirely original in the history of railroad travel; but Menlo is progressive, and as it thinks nothing too good for its friends it has done its best to make its picnic-day of 1905 one long to be remembered as a day of genuine fun and merriment. There will be prizes given for all competitors in the games. Perfect order and harmony is assured. Chairman Kelly has appointed Frank Johnson and Moses Kavanagh to supervise the police department and provide for the comfort and peace of the picnickers. Sam Brown is preparing a greased pole at the top of which will be placed a leg of mutton for the attraction of some nimble climber. Many other new features have been added to the program of the day. They will be published next week.

WHERE IS BOLONELLI?

His Private Papers Found, Which Had Been Lost For Years.

The following dispatch from Seattle appeared in the San Francisco papers yesterday:

When Judd & Co., second-hand fur k dealers, opened a trunk purchased at an "old horse" sale of the Pacific Coast Company's unclaimed baggage to-day they found it contained certificates of deposit for \$3725 in the name of Carlo P. Bolonelli, who, judging from other papers found, was a resident of California from 1800 to 1807.

The trunk came to the Pacific Coast Company's warehouse as baggage from San Francisco, but no record of Bolonelli as a passenger can be found.

Among the papers is a certificate of membership in Laguna Lodge, I. O. O. F., of Guadalupe, Cal., with dues paid until 1807. Other papers show Bolonelli was engaged in the dairy business with Antonio Bassetti at La Honda.

Two of the certificates show that on June 10, 1807, Bolonelli deposited \$1500 with Tonini & Co., San Francisco, and on various dates sums aggregating \$2225 with J. F. Fugazi & Co., San Francisco. For the latter deposits he was given a certificate of deposit on the Banca Cantonale Ticinese, Bellinzona, Switzerland, all bearing interest. There is also a deed showing he purchased a stock ranch from A. V. Kieffer of La Honda in 1802.

In another paper, involving the sale of a stock of goods for \$240, is the name of Mrs. Bolonelli.

When shown the dispatch yesterday Mr. Keiffer said he had sold his stock ranch in 1802 to a gentleman, but not the name that appeared in the dispatch.

"NOTHING TO IT."

An Anonymous Communication to the Board of Supervisors.

A communication was read at the meeting of the Board of Supervisors last Monday, signed "A Colma Taxpayer," which reflected on the county officials. The writer had not the courage to sign his name or reveal his identity so that the Board could act on the matter. The communication recited the fact that one Cavo was selling liquor near Colma without a license, through the "unpardonable neglect of those officials who are responsible to the people for collecting licenses."

The communication does an injustice to License Collector Frank M. Granger, who has been very active in prosecuting those selling liquor without a license. All complaints sent to his office have been carefully investigated by him and the offenders punished. Only last week he caused the arrest of a saloonkeeper at Colma and had him convicted for the offense that the "Colma Taxpayer" refers to. Mr. Granger is a conscientious official who performs the duties of License Collector honestly and fearlessly.

Easter Services At Portola.

The Rev. Power, S. S., of St. Patrick's Seminary, will officiate at Portola church to-morrow. Mass will be at 9 o'clock. The Catholics of Portola district who cannot speak or understand English are fortunate in being favored with a visit from Father Power at this time. The reverend gentleman is a master of nearly all the languages spoken in the christian world. The knowledge of this fact will doubtless induce many to make their Easter duty in the little hillside church to-morrow.

Death of a '49er.

Thomas Jefferson Weeks, a prominent citizen of Santa Cruz, passed away last Tuesday at the ripe age of 75 years. Deceased was a pioneer of that city, having arrived there in 1849. He amassed a fortune in farming and he invested in Santa Cruz real estate. The deceased was a brother of Bartlett Weeks of Pescadero.

**BLACK DRAUGHT
STOCK & POULTRY
MEDICINE**

This great stock medicine is a
money saver for stock raisers. It
is a medicine, not a cheap food or
condition powder. Though put up
in coarser form than Thornd's
Black-Draught, renowned for the
care of the digestion troubles of
persons, it has the same qualities
of invigorating digestion, stirring
up the torpid liver and loosening
the constipated bowels for all stock
and poultry. It is carefully pre-
pared and its action is so healthful
that stock grow and thrive with an
occasional dose in their food. It
cures hog cholera and makes hogs
grow fat. It cures chicken cholera
and roup and makes hens lay. It
cures constipation, distemper and
colds in horses, murrain in cattle,
and makes a draught animal do
more work for the food consumed.
It gives animals and fowls of all
kinds new life. Every farmer and
raiser should certainly give it a
trial.
It costs 25c. a can and saves ten
times its price in profit.

PATENTED, U. S. Pat. No. 5, 104.
I have been using Thornd's Black-Draught

that yours is the best for my purpose.
